To Whom it May Concern

This letter is to confirm that Chigle have been Badge Construction's I.T. Consultants for the past 6 years.

During that time Badge Constructions has more than doubled in size and now has a turnover in excess of \$130 million and 110 employees. Chigle have been a big part in helping us manage that growth through innovative I.T. solutions and support.

Chigle have designed, implemented and managed all aspects of our entire network Chigle have introduced Local Area Networks in each of our offices in Adelaide, Brisbane and Perth and also have implemented a Wide Area Network which connects the three offices. The ability for head office in Adelaide to access all data via the WAN in other states has been crucial in managing our growth.

We currently have approximately 70 users connecting to the network. All I.T. for the 70 users is managed by Chigle and myself from our Adelaide Head Office. We are the help desk for all aspects of I.T ranging from high end communications and networking issues all the way down to troubleshooting specific software and printer problems. It is Chigle's all round I.T. knowledge and customer service focus that is key in this regard.

In the last couple of years Chigle has also helped our push out of computers to all building sites – all sites with access to the internet can now connect back to our main servers in each state. This has enabled our project managers to be based out on site which is a real plus for us. It has also helped our communications between the state offices and our Site managers.

I would not hesitate to recommend Chigle to anyone seeking an I.T. partner.

Yours sincerely

SIMON HILL  
Finance & I.T. Manager
